Colloquium

Ornithology, the life of a Bird Biologist: Understanding migration, navigation, genetics and citizen science

Dr. Keith Barnes

Director of tropical birding Inc.

Date: 2024/03/19 (Tue)

Venue: S4-625

Time: 14:00-16:00

Abstract

Ornithology is the study of bird biology. There are many varied sub-disciplines, and my talk will focus on my main interests - including research - from being an undergraduate and honours student (migration and navigation of seabirds), MSc degree (longline fisheries interactions with seabirds), Phd (genetics and evolution), and finally my working career interacting with citizen science and tourism! While all these fields are different, they are also connected, the threads that tie them together are not obvious, so please join this talk to find out more about the life of a globe-trotting bird biologist. 演講者為鳥類學博士。演講內容包含演講者的學術經驗以及如何讓興趣與自己的工作配合的心路歷程。對於不知道想走學術的路還是直接進入業界的同學，Dr. Barnes的演講或許可以給你一些啟示。
